7. AGREEMENT AND SIGNATURE:

- a. Applicant acknowledges reviewing applicable ICC-ES Sustainable Attributes Verification and Evaluation (SAVE) Rules of Procedure. Applicant also agrees that ICC-ES may, as necessary, subcontract for work related to the evaluation report process.
- b. In consideration of the processing of this application, the applicant agrees to abide by any conditions attached to the approval of this application and the requirements of the applicable ICC-ES Evaluation Guidelines, the ICC-ES Rules of Procedure for SAVE reports, and the ICC-ES Rules of Procedure for Evaluation Reports, as they now exist and as they may be reasonably modified in the future.
- c. As a condition of an ICC-ES Evaluation Report, the applicant agrees to keep a record of all significant complaints made known to the applicant about the product(s) covered by the Verification of Attributes Report (VAR), and to make these records available to ICC-ES upon request. The applicant will take appropriate action with respect to such complaints, and document the actions taken.
- d. The VAR is subject to revision if any amendments are necessary to comply with approved code changes or new or revised ICC-ES environmental criteria, rules or policies. If revisions should be required, applicant agrees to pay applicable fees.
- e. An ICC-ES VAR does not imply any guarantee or warranty (expressed or implied, and including but not limited to merchantability) by ICC-ES of any kind, including product attributes, or against defects or failures in service nor any responsibility in regard to patent or trademark infringement, misuse of trade name or trade secrets, or any other aspect of unfair competition. Affirmative actions of ICC-ES are based primarily on the data submitted by the applicant and/or report holder of the report and the validity and integrity thereof as implicitly represented by the applicant and/or report holder in submitting the same. Applicant agrees that it shall have no cause of action or claim against ICC-ES, its parent corporation, the International Code Council, Inc., or any of their affiliates, parent, brother or sister corporations or their successor-in-interest or assigns, and the officers, directors, members and employees of such entity ("ICC" collectively throughout this paragraph) arising out of or otherwise related to any VAR issued pursuant to this application, whether or not such VAR is subject to conditions, or out of any denial of this application except the applicant shall have a course of action against ICC-ES for any intentional or wanton act or omission of ICC-ES. Applicant agrees to hold ICC harmless, and to defend and indemnify them, with respect to any claim, liability, action or judgment arising from the use or operation by any person of the product or service to which the application relates, actual or asserted, whether related to matters set forth in the first sentence of this paragraph or otherwise, whether for personal injury, wrongful death, property damage, or any type of injury or damage whatsoever, whether or not of the same kind or nature as any of the foregoing. ICC's rights pursuant to the foregoing sentence, and applicant's obligations thereunder, shall not apply if ICC was solely negligent for any intentional or willful and wanton act or omission of ICC-ES if any part or portion of this paragraph, or any application thereof to particular facts, should be determined to be invalid, the provisions hereof shall be severable so as to achieve for ICC maximum legal protection. The provisions of this paragraph shall apply from the date of first granting of the VAR, whether upon application or without application by applicant or a predecessor and regardless of: intervening modifications to said report or modifications to said report pursuant to application for renewal; or prior changes in the number assigned to the report; and any prior change in ownership rights in or rights to said report, or any additional listing included in the report, whether one or more, since granting of said first additional listing.
- f. Applicant agrees that all communication between ICC-ES and the applicant prior to the issuance of a final VAR, including draft reports and comments thereto, are and shall be the exclusive property of ICC-ES. The applicant agrees not to disclose any such information to others without prior written approval of ICC-ES.

The person signing this application form (Authorized signatory, item 5b on page 2 of this application) must be a duly authorized officer of the company with full authority to execute an agreement on behalf of the applicant and bind the applicant to these terms, or be a person to whom such authority has been given by the applicant:
